EXPERIENCE

DGLiger Consulting

July 2023 – Present

Java Developer

Gurugram, India

- **Comprehensive Backend Development for Insurance Policies**
 - Spearheaded the backend development for the Personal Accident Policies module, ensuring efficient policy lifecycle management and robust system functionality.
 - Engineered and deployed scalable APIs for seamless integration with core insurance systems and external platforms.
 - Ensured secure and efficient processing of sensitive policyholder data by implementing best practices in data management and protection.
 - **Technologies:** Java, Spring Boot, PostgreSQL.

Quality and Testing Info Solutions Pvt. Ltd

January 2023 – July 2024

Software Developer

Gurugram, India

- **Identity and Access Module (Permission System)**
 - Implemented a role-based permission management system for our software, encompassing functionalities such as user form management, user groups, hierarchical group management, app roles, role bindings, and handling unassigned users.
 - Implemented an email-based two-factor authentication system to enhance security. Utilized base64 encoding and decoding for secure communication.
 - **Technologies:** Java, Spring Boot, MongoDB.
